

**During the in-cosmetics show - Paris 2010,
Innovabio is proud to present**

 **DrinkBeauty!® Collagen**
with Peptan™

Combining its expertise in nutraceutical development with its natural NatCaps® micro-encapsulation process, Innovabio has developed, in collaboration with Rousselot one of the leading collagen producer in the world, a groundbreaking “beauty from within” nutricosmetic.

DrinkBeauty!® Peptan™ Collagen is a blend of bioactive ingredients acting in synergy to help reverse the signs of ageing thanks to:

- Youth protein activation
- Collagen synthesis stimulation
- Cell protection

Peptan™ Collagen has clinically shown to:

- Improve skin moisture level
- Improve skin smoothness by reducing the number of micro-relief furrows
- Prevent the formation of deep-wrinkles

**Visit us at our booth (M80)
and discover DrinkBeauty!® Peptan™ Collagen**

About Innovabio

Innovabio is a leading company dedicated to creating tailor-made nutraceuticals for beauty and wellness brands. With its expertise throughout the entire supply chain (concept, sourcing, formulation, efficacy test, manufacturing), Innovabio is able to offer its know-how to brands who are looking to outsource their complex nutraceuticals.

In order to always offer innovative and unique products, Innovabio is continuously discovering and developing new technologies. One of these is NatCaps®, a breakthrough natural micro-encapsulation process improving the stability of sensitive active ingredients during the processing and allowing a better targeted release after consumption.
